ATTACHMENT Idaho

The Department of Health and Welfare will update data at coronavirus.idaho.gov at 5 p.m. Monday through Saturday. Data are preliminary and subject to change. Idaho case counts include both probable and confirmed cases based on an interim COVID-19 positivity statement issued by the Council of State and Territorial Epidemiologists on April 10, 2020.

Infection rate

On average, each person in Idaho with COVID is infecting 1.02 other people. Because this number is around 1.0, it means that COVID continues to spread, but in a slow and controlled fashion.
